TESTIMONIAL

I couldn't be happier with the work Ash did on my flat. From the outset, Ash understood my style preferences and executed the design with precision and attention to detail. His mindset is next level, far beyond that of a regular designer. Ash's style and ideas are unique, making every element of my home stand out. Working with him was a breeze; he's easy to talk to and gets straight to the point. The result is absolutely perfect, and my home now looks amazing and feels just right. I highly recommend Ash for anyone looking for a trustworthy, talented, and innovative interior designer.

Guido Geraci, Morgan Stanley ★★★★★

Ash did an incredible job redesigning my house. He immediately grasped my style vision and turned it into a reality with precision and flair. The trust I placed in Ash was well-founded, as the final outcome is stunning. My house now has the perfect look and feel, exactly as I had hoped. I can't recommend Ash highly enough for outstanding interior design work.

★★★★★ Lord Darren Mott, House of Lords

Choosing Ash as the interior designer for my flat was the best decision I made. From the moment I shared my style preferences, Ash understood exactly what I wanted and executed it flawlessly. Trusting Ash with the project was easy, and the end result exceeded all my expectations. My flat now looks stunning and perfectly reflects my taste. I couldn't be happier with the outcome. I highly recommend Ash for anyone looking for a perfect blend of style and professionalism in their home design.

Konark Trikha, Knight Frank ★★★★★

Such a talented architect, beyond expectations! I can only strongly recommend Ashish for any interior design project. He covered the complete redesign of my 1 bed flat into a 2 bedroom flat. It was a tricky project for a quirky home, but he came with solutions tailored to my flat, whilst taking into account my taste and my budget constraints. In every step of the project, he went above and beyond, by pro-actively making suggestions. He was always very responsive and made this whole process seamless and very reassuring. This was my first project and I was quite anxious by it, but he made it so much easier and could not be happier we worked together on this. Thank you Ash!

Design can be art. Design can be aesthetics. Design is so simple, that's why it is so complicated.
